Can you be a Computational Linguist?

**Info/Practice Session:
PUZZLES PIZZA PRIZES!**
Sat. January 21, 2023 10am-12:30pm
Johns Hopkins University

Open Competition:
Thurs. January 26, 2023 10am-1pm
Hosted at Johns Hopkins University

To sign up or for more information,
check the JHU NACLO website at
naclo.clsp.jhu.edu
or write to us at
jhu.naclo@gmail.com

Could computers learn to use human language?
They're already trying – thanks to computational linguists. Search engines are getting smarter about finding information and translating it into English for you. We use voice commands with our phones. Google Voice will even turn your voicemails into written emails. Come to our info / practice session to talk about language technology, eat pizza, hook up your left brain to your right brain, try puzzles from the Computational Linguistics Olympiad, and win some prizes.
ABSOLUTELY NO BACKGROUND NECESSARY!
